

Vinay Ippakayala *Front End Developer*

✉ vinayippakayala01@gmail.com ☎ 7977545292 📍 Mumbai 🌐 LinkedIn 📄 GitHub 📁 Portfolio

PROFILE

Frontend Developer with **4 years** of total industry experience, including **2.5+ years** of hands-on frontend development using **React.js**, **Next.js**, **JavaScript (ES6+)**, **HTML**, and **CSS**. Experienced in building production UI for a SaaS **Contract Lifecycle Management (CLM)** product, integrating REST APIs, and collaborating closely with backend teams. Skilled in **component-based architecture**, **state management** (Redux), and **API integration**. Comfortable working with **PostgreSQL** and **MySQL**, with a basic working understanding of **Node.js**.

PROFESSIONAL EXPERIENCE

Volody Products Pvt. Ltd., 📍, *Frontend Developer*
2025/07 – Present | Mumbai, India

- Working on **Volody's AI-powered Contract Lifecycle Management (CLM)** SaaS platform used by enterprise clients to manage the full contract lifecycle.
- Built new UI pages from scratch for a key enterprise client engagement (**Adani**), translating requirements into responsive, production-ready screens.
- Resolved **30+ client-reported issues** on the CLM product, improving platform stability and client satisfaction.
- Built new UI modules with end-to-end **API integration**, coordinating closely with backend developers to ship features on schedule.
- Re-architected token handling for a CLM client: removed the auth token from session/local storage and instead fetched it via API, storing it in **Redux** and consuming it through centralized state – improving security and maintainability.
- Contributed to **Lawxy**, integrating multiple REST APIs, and to **WOPI** (Web Application Open Platform Interface) integration, implementing the API integrations that power in-app document viewing/editing.

Wipro 📍, *Frontend Developer*

2022/06 – 2025/06 | Mumbai, India

- Developed dynamic ad responsive web applications using **React.js**, **Javascript**, **HTML**, **CSS** and designed **modern UI** with **Tailwind CSS** and **Bootstrap**.
- Built scalable and maintainable applications by efficiently using **Redux** and **Context API** for state management.
- Created reusable, component-based architecture in **React.js** to ensure faster development.
- Improved application performance through **optimized rendering**, **lazy loading** and **code-splitting** strategies.
- Integrated real-time APIs and handled HTTP requests with **Axios** and **Fetch API** for seamless data flow.

EDUCATION

Bsc IT, *B.N.N College, Mumbai University*

2019/06 – 2022/05 | Bhiwandi, India

9.45/10.0

SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Redux

Frameworks: Next.js, Bootstrap, Tailwind CSS

Backend / DB: Node.js (Basic), PostgreSQL, MySQL

API: REST APIs, Axios, Fetch API

Tools: Git, GitHub, Jira, Vercel, Netlify, Render

AI Tools: Claude, AI Studio, Lovable, Antigravity

PROJECTS

Food Delivery App 📍, *Tech-Stack: React.Js, Next.Js, MongoDB, Express.Js, JavaScript, HTML, CSS*

- Developed a responsive **food ordering platform** using **React.js** and **Express.js** to enable users to browse menus, place orders, and track deliveries in real time.
- Implemented user **authentication** with **JWT**, ensuring secure user sessions and protecting sensitive data.
- Integrated **MongoDB** to manage dynamic data like menus, user orders, and delivery status.
- Designed smooth **user flows** (sign-up, log-in, browse menu, add to cart, checkout) with efficient state management.

Food Delivery (Admin) 📍, *Tech-Stack: React.Js, Next.Js, MongoDB, Express.Js, JavaScript, HTML, CSS*

- Built a **dashboard** for admins to **manage menus, orders, and users** using **React.js** and **Next.js**.
- Integrated secure **admin login** and **role-based access control** with **JWT** authentication.
- Implemented **CRUD operations** for menu items and order tracking in **MongoDB**.
- Developed **order management system** to allow real-time updates to orders (accepted, dispatched, delivered).

E-commerce 📍, *Tech-Stack: React.js, Redux Toolkit, Javascript, Axios | Fetch, HTML, CSS*

- Developed a fully responsive **e-commerce platform** using **React.js** for dynamic and efficient UI rendering.
- Integrated **Redux Toolkit** for **state management** to handle complex cart operations, product listings.
- Built reusable and modular **React components** to maintain clean and scalable code.
- Managed application-wide state efficiently using **Redux slices**.
